**RESPONSE TO ELECTION REQUIREMENT**

Sir:

In the Office action dated August 24, 2004, the Examiner required an election of species under 35 U.S.C. § 121 prior to an examination on the merits of application. The separate species of the claimed invention as identified by the Examiner are as follows:

Species I : Figures 1-8.

Species II : Figures 9-11.

Serial No. : 10/665,217  
Art Unit : 3618

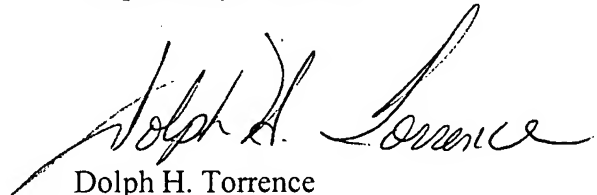

Attorney Docket No. 20876.01  
Confirmation No. 5725

In compliance with the Examiner's requirement, Applicants provisionally elect with traverse for further prosecution the embodiment shown in Figs. 9-11 (designated herein as "Species II"). Claims 1-9, 11-13 and 17-20 are considered to be readable on the elected species. Claim 1 is generic.

Notwithstanding the propriety of the election requirement for examination purposes, Applicants contend that they should be entitled to a consideration of a reasonable number of related embodiments falling within the scope of a generic inventive concept. Moreover, it would appear that a search and examination of the entire application could be accomplished without a serious burden on the Examiner since the multiple embodiments identified of record would seemingly encompass a common field of search.

Accordingly, it is respectfully requested that the Examiner withdraw the election requirement, and issue an action on the merits of both embodiments presently in the case. Alternatively, should the Examiner maintain the requirement and make it final, Applicants await a complete action on the merits of the elected subject matter.

Respectfully submitted,

Dolph H. Torrence
